About Us

Your Source For Precise, Reliable & Consistent Quality Products

WESMEC is an ISO 9001:2015 company that was established in the year 1986. Today we have emerged as a company with a rich experience of three decades and more in providing solution for industrial, mechanical and instrument piping and tubing systems.

Our solution consists of customized and cost effective products that regulate control flow for piping and tubing systems.

We are leading manufacturers of Instrument and Industrial Valves and Fittings specialized in different sizes and materials as per client's requirement.

Thus, utmost care is taken to ensure that our products match the quality norms as per international standards. Right from selection of raw materials to its production; to its delivery, each and every stage undergoes strict quality checks.

Products

WESMEC offers clients a complete range of instrumentation erection hardware, ranging from instrument fittings, valves, manifolds, quick release couplings, pressure relief valve, sampling cylinders, air headers, flanges and condensate pots.

We also offer clients with pre-fabricated instrument hook ups which are a convenient way of eliminating impulse piping by using sandwich constructed valves.

WESMEC has developed high pressure needle valves, a range of gas valves for turbine applications and block and bleed valves.
